Samuel Kwame OFFEI

Prof. S. Kwame Offei is a Professor of Biotechnology and holds a BSc in Agriculture from the University of Ghana a MPhil in Plant Virology and a PhD in Plant Molecular Virology from the Imperial College of Science, Technology and Medicine, University of London.

Prof. Offei started his working life in the then Faculty of Agriculture, University of Ghana. In 1987, he was appointed a Lecturer in the Department of Crop Science. He was appointed as a Post-Doctoral fellow at the Rothamsted Research Institute in 1995 during the terminal stages of his PhD research. In 1996 he was promoted to the rank of Senior Lecturer in the University of Ghana, an Associate Professor in 2004, and Professor in 2006. His research areas have focused on analysis of plant responses to biotic and abiotic stresses, development of molecular diagnostic probes for plant microbes, and integration of biological and social science in the implementation of research. He has demonstrated a sustained high level of professional excellence and contribution to knowledge in his field of expertise through innovative research.

In his work history at the University of Ghana, Prof. Offei has held key administrative positions. Between 2005-2006 he was the Head of the Biotechnology Centre. From 2006-2011, he served as the Dean of School of Agriculture and as Provost for the College of Agriculture and Consumer Sciences from 2011-2014. He was appointed as interim Provost for College of Basic and Applied Sciences in 2013 to oversee the establishment of the new College under the University of Ghana Collegiate system. From 2014-2019, he served as the Pro Vice-Chancellor responsible for Academic and Student Affairs. On international platforms, he has engaged with many international organisations as a resource person in the development and dissemination of biological technologies.
